FROM: Pamela Grubaugh-Littig, Reclamation Engineer *pgl*

RE: Status of Interpace Industries Clay Pits, ACT/057/003,  
Weber County, Utah, and ACT/049/006, Utah County, Utah

I received a telephone call on February 7, 1986 from George Beamer, Project Development Engineer, at Interpace Industries regarding the "unpermitted" status of the above listed clay pits. The MR-1 forms were filed in 1977 and no permits were issued by the Division.

Until these mines are permitted, they should be removed from the annual report list.
